RE: RFP RICC 12 Dual AC 7.2KW Stations

Question:

1. Is the connection powering the Network: Ethernet, WIFI or Cellular? **All Three**

Questions for 12 EV Charging Station RFP for Providence Convention Center:

- 1) You list the CPE280, which is a level 3 charger. Is the correct model number CP6021B-50A-L5.5? **CPE280 and or equivalent.**
- 2) You mention only the CT4021 series, but in the pricing area request pricing for wall mounted options. For the 12 stations, do you have a breakdown on how many will be wall mounted and how many freestanding/bollard stations? **Either or.**
- 3) With the order coming in September for the award winner, will you be wanting delivery of all 12 ASAP or will you want them spread out over a certain delivery window? **YES, ASAP delivery.**
